

MEET THE TEAM

JASON ALLEN

Field Operations
Supervisor

Jason was born and raised in Riverdale, a small farming town in California. After graduating high school, he worked on the road, from state to state, as a millwright for several years. The job as a millwright wasn't consistent, and with the nudging of family and the promise of a job, Jason moved to Carlsbad in the fall of 2012.

Because he likes Carlsbad he has decided to stay. He had some ups and downs while in Carlsbad but feels like he's part of a family at CEHMM. He started as a Field Technician in 2017 and now is our Field Operations Supervisor.

Thank you Jason!
