

MEET THE TEAM

SANDRA TANNER

**Project Manager,
Environmental Services**

Sandra attended college on a soccer scholarship at College of the Southwest where she graduated with a Bachelor of Business Administration in Accounting. She began working for CEHMM in 2012 as a part-time contractor for various projects. Her work experience in trench monitoring and gypsum wild buckwheat surveys afforded her the opportunity to become a full-time Environmental Services Field Technician. In September 2021, she was promoted to Environmental Services Project Manager because of her years of experience in the field.

Thank you Sandra!
